NOTICE OF INTENT TO ISSUE CLEAN AIR ACT  
TITLE V FEDERAL OPERATING PERMITS

The Region 9 office of the United States Environmental Protection Agency (EPA) requests public comment on draft Operating Permits for Salt River Sand and Rock, a sand and gravel facility, and the Tri-Cities Landfill Energy Facility, a power generation facility. Both facilities are located in Scottsdale, Arizona on the reservation of the Salt River Pima-Maricopa Indian Community.

These sources are required to obtain a Clean Air Act Title V Operating Permit in accordance with 40 CFR Part 71. The permits contain all the Clean Air Act requirements that apply to the sources and requires that the sources conduct monitoring sufficient to enable US EPA and the public to determine whether the sources are complying with the applicable air quality requirements. This proceeding is subject to the administrative requirements of 40 CFR 71.11.

Members of the public may review copies of the draft permits prepared by US EPA, the statements of basis for the draft permits, the applications, and all supporting materials submitted by the sources at the offices of the Salt River Pima-Maricopa Indian Community, 13602 Beeline Highway, Scottsdale, Arizona 85256, or by contacting Roger Kohn at (415) 972-3973 or [kohn.roger@epa.gov](mailto:kohn.roger@epa.gov), or by writing to:

Roger Kohn (AIR-3)  
EPA, Region 9  
75 Hawthorne Street  
San Francisco, CA 94105

All documents will be available for review at the US EPA Region 9 office Monday through Friday from 9:00 A.M. until 4:00 P.M.(excluding federal holidays).

Pursuant to 40 CFR 71.11(f), EPA shall hold a Public Hearing if the Regional Administrator finds, on the basis of requests, a significant amount of public interest in a draft permit. Requests for a Public Hearing must contain the reasons for requesting a hearing. If a Public Hearing is granted, a public notice stating the date, time and place of the hearing will be made at least 30 days prior to the hearing and the comment period will be extended through the hearing date.

A legal ad to be published in both the Au-Authm Action News the Arizona Republic on September 7, 2006 will announce EPA's proposal to issue the initial Title V permits. All comments upon or objections to the draft permits and requests for a Public Hearing must be sent or delivered in writing to Roger Kohn at the address shown above by October 9, 2006. An extension of the 30-day comment period may be granted if the request for an extension adequately explains why more time is required to prepare comments. All comments received prior to the end of the public comment period and all

comments made during a public hearing will be considered in arriving at a final decision on the permits. All comments will be included in the public docket without change and may be made available to the public, including any personal information provided, unless the comment includes Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Information that you consider CBI or otherwise protected should be clearly identified as such and should not be submitted through e-mail. If you send e-mail directly to EPA, your e-mail address will be captured automatically and included as part of the public comment. Please note that an e-mail or postal address must be provided with your comments if you wish to receive direct notification of EPA's final decision regarding the permit and its responses to comments submitted during the public comment period. The final permits are public records that can be obtained upon request. A statement of reasons for changes made to the draft permits and responses to comments received will be sent to all persons who commented on the draft permits.

If you believe any condition of the draft permits is inappropriate or that our initial decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, you must raise all reasonably ascertainable issues and submit all reasonably ascertainable arguments supporting your position by the end of the comment period.

If you would like to be added to the mailing list for updates on a particular facility or for updates on EPA's Title V Operating Permit program, please contact EPA at the address listed above. Please bring the foregoing notice to the attention of all persons who you know would be interested in this matter.
